

GRAND COUNTY CHRISTIAN ACADEMY

Tuition & Scholarships

Grand County Christian Academy operates as a ministry of Winter Park Christian Church. While the total cost to operate the school exceeds \$12,000 per student, our desire is to offer financial assistance so that no student is denied the opportunity to attend GCCA because of cost. Here is how we make that happen.

WPCC provides the entire facility, rent free, including classrooms, offices, large indoor meeting spaces, outdoor recreation and play areas, and parking. In addition, WPCC provides a monthly cash contribution sufficient to cover all non-payroll expenses for the school. Tuition receipts are directed toward teacher and staff salaries.

Tuition costs are offset through these programs: The first is a flat scholarship available to all families, regardless of income, who complete registration by May 1 and first month's payment by June 1. Second, an income-based scholarship is available to families that sets a maximum out-of-pocket cost. ([FACTS Financial Aid](#)) The third option is a third-party program called ACE Scholarships. ([ACE Scholarships Information](#)) GCCA is awarded a set number of these scholarships that families may access.
